Jamnagar, Gujarat, India | jhaaniketkumar04@gmail.com | linkedin.com/in/aniket-kumar-jha-41681a304
| github.com/Programmer-Jha | Portfolio

Summary

Aspiring Software Developer with hands-on experience in full-stack web development, building scalable applications, and developing interactive systems. Proficient in multiple programming languages and modern development tools. Strong problem-solving abilities with a focus on performance optimization and user-centric design.

Experience

Full Stack Developer Intern Jan – March 2026
Yash Infosystem, Jamnagar

- Developed and maintained scalable web applications using PHP, JavaScript, and MySQL, improving system performance and reliability.
- Designed responsive user interfaces, enhancing user experience and reducing load times.
- Built backend modules and RESTful APIs to support dynamic, data-driven features.
- Collaborated on debugging, testing, and optimizing workflows, improving application efficiency.

Data Analytics Job Simulation — Tata iQ (Forage) Jan 2026

- Performed exploratory data analysis using AI tools to identify customer risk patterns.
- Designed a predictive framework to evaluate customer default probability.
- Proposed AI-driven strategies for automated and ethical collections processes.

Cybersecurity Analyst Job Simulation — TCS (Forage) Jan 2026

- Applied IAM principles to analyze and improve access control systems.
- Implemented security best practices for risk mitigation and authentication workflows.
- Documented and presented structured cybersecurity insights.

Projects

ChocoCart Ecommerce Website GitHub
PHP, MySQL, JavaScript, HTML, CSS

- Built a full-stack ecommerce platform with dynamic product management and responsive UI.

Weather App GitHub
JavaScript, HTML, CSS, API

- Developed a real-time weather app with live updates and dynamic UI.

Gesture Snake Game GitHub
Python, OpenCV

- Created a gesture-controlled Snake game using computer vision techniques.

Java Group Chat Application GitHub
Java, Socket Programming

- Developed a multi-user chat system enabling real-time communication.

Email Spam Management System GitHub
C++

- Designed a system to detect and manage spam emails efficiently.

Tic Tac Toe Game GitHub
C

- Built a console-based game with interactive gameplay.

Skills

Programming: C, C++ , Java, Python, JavaScript, PHP, SQL
Web Development: HTML5, CSS3, Bootstrap, Responsive Design
Backend: PHP, REST APIs, Laravel
Database: MySQL, Oracle SQL, SQLite
Tools: Git, GitHub, VS Code

Education

Bachelor of Computer Applications (BCA)	
Saurashtra University	Expected 2026
Class XII	
J P Modi School, Jamnagar	2023
Class X	
Mother Teresa Vidyapeeth, Bihar	2021

Certifications

- HackerRank 5-Star Gold Badge (C, C++)
- HackerRank Problem Solving
- HackerRank SQL
- IBM - Artificial Intelligence
- IBM - Cloud Computing
- IBM - Project Management
- IBM - Job Essentials
- IBM - Prompt Engineering for AI
